

7 Reasons for Patients with Diabetes to Consider Taking Juice Plus+

Juice Plus+® – The Next Best Thing to Fruits and Vegetables

1. Prevents DNA damage.
2. Builds T-Cell count-helps immunity, decreases risk of cold, flu, & infections.
3. Helps wound healing – heal faster.
4. Decreases the higher risk of gum disease that often affects patients with diabetes
5. Reduces 3 specific markers of systemic inflammation in the body
6. Helps blood flow and circulation- which reduces the risk of amputation
7. Decreases oxidative stress- which is the cause of many of the long term complications.
